The Department of Oral Biology at UMKC School of Dentistry is seeking a Post Doctoral Fellow with a Ph.D. in Biochemistry or Oral Biology. Specific experience and interest in the biology of matrix metalloproteinases (MMPs) is desired. The successful candidate will work on a project that investigates the functional role of MMPs in oral mineralized tissues.

Applicants should submit a letter of interest, a CV, names and contact information for three references in one document to pinkstonj@umkc.edu. Questions regarding this opportunity should be directed to John Pinkston at PinkstonJ@umkc.edu.

Position Requirements:

Specific experience and interest in the biology of matrix metalloproteinases (MMPs) is desired.

Education Requirements:

Ph.D. in Biochemistry or Oral Biology
